

# SHADY MOIST WOODLAND MENU

Plant seeds in the fall

Use 300-600 seeds/square metre or 30-60 seeds/square foot

Consider adding native grasses, sedges and reeds (40-60%)

Consider native shrubs at edges for more diversity and berries

## SUITABLE FORBS

flowering times

Qty			Spring	Summer	Later
	alum root, small-flowered	<i>Heuchera micrantha</i>	white		
	bleeding heart, pacific	<i>Dicentra formosa</i>
